Thailand Scholarships (Year 2026) Group 2 (All Nationalities)

List of Scholarship Programs Offered and Application Guidelines

1. Overview of the Scholarship

The Ministry of Higher Education, Science, Research and Innovation (MHESI) of the Kingdom of Thailand has implemented the Thailand Scholarships Program to promote academic excellence, strengthen international cooperation and support human capital development through the provision of scholarships for international students to pursue higher education studies and exchange or training programs at participating Thai higher education institutions.

The Thailand Scholarships Group 2 aims to support international students of all nationalities with opportunities to pursue undergraduate and graduate studies, as well as exchange or training programs, at Thai higher education institutions.

2. Participating Thai Higher Education Institutions and Programs Offered

For the Academic Year 2026, MHESI, in cooperation with participating Thai higher education institutions, is pleased to announce that a total of 211 academic programs are offered, comprising at least 174 scholarship awards for Master's and Doctoral degree programs, as well as exchange or training programs. Details of the available programs and scholarship allocations are presented in Tables 1 and 2.

Table 1 List of Participating Thai HEIs and Number of Programs Offered

Visa and Pre-departure Preparation Successful candidates must apply for a non-immigrant education visa and complete pre-departure arrangements in coordination with the host institution and relevant Thai authorities. 10. Program Enrollment Upon arrival in Thailand, scholarship recipients must complete registration and enrollment procedures at the host institution and participate in the orientation program before commencing the course.
<p>Application Period / Deadline:</p>	<p>Application Period / Deadline</p> <ol style="list-style-type: none"> 1. Application Period The application period for the Giant Freshwater Prawn Production program under the Thailand Scholarships scheme is normally announced annually by the Ministry of Higher Education, Science, Research and Innovation (MHESI) through official channels.

Thailand Scholarships (Year 2026) Group 2 (All Nationalities)

	<p>Applications are generally open between January and March of the academic year preceding the program commencement.</p> <ol style="list-style-type: none"> 2. Application Deadline The official application deadline will be specified in the Thailand Scholarships announcement issued by MHESI and/or the host Thai institution. All required application documents must be submitted no later than the stated deadline. Late or incomplete applications will not be considered. 3. Nomination Deadline Applicants must ensure that nominations by their home institutions or relevant authorities are completed and submitted within the timeframe specified in the official announcement. The internal deadlines of nominating institutions may be earlier than the national deadline. 4. Selection Timeline <ul style="list-style-type: none"> • Application review and shortlisting: April–May • Final selection and approval: May–June • Notification of successful candidates: June–July <i>(The timeline may vary depending on the host institution and administrative procedures.)</i> 5. Program Commencement The program is expected to commence in August or September of the academic year, in accordance with the academic calendar of the host institution. 6. Important Notice Applicants are strongly advised to regularly check official announcements from MHESI and the host institution, as application periods and deadlines are subject to change without prior notice.
<p>Program / Course Information: <i>(e.g., official website or program link for applicant reference)</i></p>	<p>International Program / Short Course / Graduate-level Course</p> <ol style="list-style-type: none"> 1. Program Title Giant Freshwater Prawn Production 2. Program Rationale The giant freshwater prawn (<i>Macrobrachium rosenbergii</i>) is a high-value aquaculture species with significant economic importance in many tropical and subtropical countries. This program is designed to provide comprehensive knowledge and practical skills in sustainable giant freshwater prawn production, integrating biological principles, modern culture technologies, farm management, and market-oriented production strategies. 3. Program Objectives The objectives of this program are to: <ol style="list-style-type: none"> 1. Provide in-depth understanding of the biology and life cycle of giant freshwater prawns. 2. Develop technical skills in hatchery, nursery, and grow-out production systems. 3. Enhance competency in water quality, feed, and health management. 4. Promote sustainable and environmentally responsible aquaculture practices. 5. Strengthen analytical skills in production planning and economic evaluation. 4. Learning Outcomes Upon successful completion of the program, participants will be able to:

Thailand Scholarships (Year 2026) Group 2 (All Nationalities)

- Explain the biological and ecological characteristics of giant freshwater prawns.
- Design and manage hatchery and grow-out systems effectively.
- Monitor and control water quality parameters for optimal prawn growth.
- Apply disease prevention, biosecurity, and health management strategies.
- Evaluate production performance, costs, and profitability of prawn farming systems.

5. Target Participants

This program is intended for:

- International undergraduate and graduate students in aquaculture, fisheries, or related disciplines.
- Researchers and technical staff in aquatic animal production.
- Government officers and extension workers in fisheries and aquaculture sectors.
- Entrepreneurs and farm managers involved in freshwater prawn production.

6. Program Structure

The program consists of:

- **Lectures** covering fundamental and applied concepts.
- **Laboratory and field practices** for hands-on experience.
- **Case studies** based on real production systems.
- **Field visits** to commercial giant freshwater prawn farms and hatcheries.

7. Course Contents / Modules

1. Overview of the Global Giant Freshwater Prawn Industry
2. Biology and Life Cycle of Giant Freshwater Prawn
3. Broodstock Selection and Hatchery Management
4. Larval Rearing and Nursery Techniques
5. Grow-out Culture Systems and Stocking Strategies
6. Feed Formulation and Feeding Management
7. Water Quality Management and Pond Ecology
8. Health Management, Diseases, and Biosecurity
9. Genetics, Selective Breeding, and Stock Improvement
10. Smart Aquaculture and Precision Farming Technologies
11. Harvesting, Post-harvest Handling, and Value Chain Management

8. Teaching and Learning Methods

- Classroom lectures and seminars
- Group discussions and problem-based learning
- Practical training in laboratories and experimental farms
- On-site demonstrations and field-based learning

9. Assessment and Evaluation

Participants' performance will be evaluated through:

- Written examinations and quizzes
- Practical skill assessments
- Individual or group presentations
- A mini-project or production plan for giant freshwater prawn farming

10. Program Duration and Credits

- Duration: One academic semester or 8–12 weeks for a short-course format
- Credits: 3–6 academic credits (subject to institutional regulations)
- Contact hours:

Thailand Scholarships (Year 2026) Group 2 (All Nationalities)
